Plus, they're infused with the antioxidant-rich power of apple cider vinegar, which helps to detoxify and boost metabolism.

### The Science Behind Keto Gummies

When you take keto gummies, you're not just getting a tasty treat – you're also triggering a chain reaction of events that lead to weight loss. Here's how it works:

1. The MCT oil in keto gummies is quickly absorbed into your bloodstream, where it's converted into ketones – the primary source of energy for your brain and body.
2. As ketones flood your system, your body starts to break down stored fat for energy,

leading to a significant reduction in body fat.
